

YOUR PARTNER IN PROTECTING YOUR GLOBAL HUMAN CAPITAL

WHY YOU SHOULD SELECT US

1. Benefit from **local expertise**

Through the Insurope Multinational Network of insurance companies you have access to local expertise in employee benefits in over 80 countries.

Our network members have been selected based on their knowledge, their wide product range and capability for tailor-made solutions. In many countries this has allowed them to

achieve and maintain a top three ranking within the employee benefits area.

For purposes of Insurope related business, Insurope Network Members only underwrite business in the country for which they represent Insurope as a Network Member.

2. Assess your **benefits globally**

We assist you with solutions to **reduce the insurance cost** of your global employee benefits policies.

By consolidating these policies under a pooling agreement among network members, you have access to premium refunds by network members, commonly referred to as a multinational dividend. This solution is offered at **no additional cost to local premium**.

By applying our local pricing mechanism adjusted by global pooling assessment, our network members could enhance your cash flow position by moving away from a country by country pricing towards an assessment of the overall risk on a multinational level.

As such a network member can provide you with an “upfront multinational discount” on the related premiums.
